Precourse Self-Assessment Results

Congratulations soniya george!

Congratulations, you have passed the ACLS Precourse Self-Assessment with a score of

75%

Scores for Major Testing Areas

This precourse self-assessment has 3 sections covering these major testing areas:

The **Rhythm Identification** section tested your ability to identify the basic core rhythms used in the ACLS Provider Course and written exam. You scored 40% on Rhythm Identification.

The **Pharmacology** section tested your ability to identify drugs used in clinical situations. You scored 85% on Pharmacology.

The **Practical Application** section tested your ability to identify a rhythm and then choose the correct action or drug, as you will be expected to do in the learning stations and the Megacode Testing Station. You scored 100% on Practical Application.

Scores for Diagnosis Questions

The diagnosis questions tested your knowledge of material found in ACLS core cases. If you scored low on a diagnosis question, review the case, including the drugs and the series and sequence of interventions used in the case.

Here is how you scored on diagnosis questions:

Asystole: 75% (Question: 3/4)
Tachycardia: 33% (Question: 2/6)
VF/pVT: 77% (Question: 10/13)
PEA: 75% (Question: 3/4)
Bradycardia: 64% (Question: 7/11)
Stable tachycardia: 60% (Question: 3/5)
Unstable tachycardia: 100% (Question: 1/1)
ACS: 100% (Question: 3/3)

Stroke: 100% (Question: 2/2)
VF/pVT treated with high-quality BLS: 100% (Question: 6/6)
Airway management treatment: 100% (Question: 4/4)

Scores for Algorithm Questions

The algorithm questions tested your knowledge of material found in ACLS core algorithms. If you scored low on an algorithm question, review the algorithm, including the drugs and the sequence of interventions in the algorithm.

Here is how you scored on algorithm questions:

Cardiac arrest: 81% (Question: 22/27)
Tachycardia: 50% (Question: 6/12)
Bradycardia: 64% (Question: 7/11)
ACS: 100% (Question: 3/3)
Stroke: 100% (Question: 2/2)

Scores for Drug Questions

The drug questions tested pharmacology material found in ACLS core cases. If you scored low on specific drug knowledge, make sure you know how and when the drug is used as well as what dose to use in specific situations, such as atropine for PEA vs ACS, or dopamine and epinephrine for bradycardia.

Here is how you scored on drug questions:

General pharmacology: 80% (Question: 4/5)
Atropine: 100% (Question: 2/2)
Nitroglycerin: 100% (Question: 1/1)
Epinephrine: 86% (Question: 6/7)
Aspirin and fibrinolytics: 100% (Question: 1/1)
Aspirin: 100% (Question: 2/2)
Adenosine: 67% (Question: 2/3)
Amiodarone: 100% (Question: 2/2)
